

DECLARATION OF COMPLIANCE

Product(s) covered by this declaration

PRE-ELEC® GRADES

Date of the declaration

19.1.2021

REACH

European Union regulation (EC) 1907/2006 requires Registration, Evaluation and Authorization of Chemicals (REACH) manufactured and imported into the European Union, Premix Oy as a plastic granulate and article producer, is aware of REACH regulation and committed to comply with the legal obligations arising from said regulation as well as to assist its customers in doing so.

In accordance with Article 33 of REACH any supplier of an article containing a substance meeting the criteria in Article 57 (Substance of Very High Concern, SVHC) and identified in accordance with Article 59(1) (i.e. the substances on the Candidate List or on the Authorisation List) in a concentration above 0,1 % weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance.

To fulfill this obligation Premix Oy hereby certifies that the following product(s) do not contain Substances of Very High Concern above the threshold values laid down by the REACH legislation.

We also declare that the products comply with the restrictions listed in Annex XVII of REACH regulation.

EU RoHS

A directive (2002/95/EC, RoHS) restricting the use of hazardous substances in electrical and electronic equipment (EEE) has been in force since February 2003. The RoHS recast directive (2011/65/EU, RoHS 2) was published in 2011.

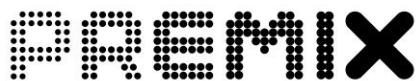

The RoHS 2 restricts the use of certain hazardous substances (lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls, polybrominated diphenyl ethers) in electrical and electronic equipment (EEE). The Annex II was amended by a directive (EU) 2015/863 to add 4 phthalates onto the list of restricted substances under the RoHS 2.

As these restrictions are relevant to some of our customers, Premix Oy hereby declares that none of the products that we deliver to our customers contain any of the substances restricted by the EU RoHS regulations.

We will keep our customers posted of any relevant developments should something change in our product portfolio or in the related relevant provisions of the REACH or RoHS legislation. We declare that to the best of our knowledge the information provided here is true and complete. However, the declaration is partly based on the information provided by the raw material suppliers and we cannot guarantee the quality of that provided information.

China RoHS (Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products)

Suppliers of materials and parts that are used to manufacture electronic and electrical products do not need to mark their products. However, they need to provide necessary information to their downstream users to help them determine the final China RoHS markings. China RoHS contains the following substances, detailed concentration limits are set by GB/T 26572-2011. - Lead (Pb), 0.1% - Mercury (Hg), 0.1% - Cadmium (Cd), 0.01% - Hexavalent chromium (Cr⁶⁺), 0.1% - Polybrominated biphenyls (PBBs), 0.1% - Polybrominated diphenyl ethers (PBDEs), 0.1%. The products covered by this declaration are China RoHS compliant since they do not contain restricted substances above the respective limit value.

Conflict minerals

Conflict minerals, which contain columbite-tantalite (coltan), cassiterite, gold, wolframite and their derivative metals like sources of tin, tungsten and tantalum mined from the Democratic Republic of Congo (DRC) or its adjoining countries (DRC Countries: Angola, Burundi, Central African Republic, the Republic of Congo, Rwanda, South Sudan, Tanzania, Uganda, Zambia) are not used in manufacturing process during the production of this product.

Packaging waste EU

These products are free from heavy metals and is recyclable as regulated by Directive 94/62 (packaging and packaging waste) and its amendments: the sum of lead, cadmium, mercury and hexavalent chromium is below 100 ppm.

Packaging Waste CONEG

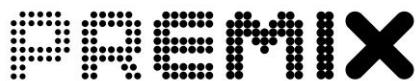

The heavy metals content requirements of the Coalition of Northeastern Governors ("CONEG") Model Toxics in Packaging legislation is fulfilled. These products do not affect the recycling or burning of the plastics products they are part of.

Persistent organic pollutants (POPs)

This product(s) comply with the requirements of Regulation (EU) 2019/1021 on persistent organic pollutants and does not contain persistent organic pollutants.

Biocidal Products

This product(s) does not contain biocidal products according to Regulation EU 528/2012.

Substances of animal origin

This product(s) is free from risk of transmission of BSE or TSE as regulated by EMEA 410/01 and EN 12442. No animal substances or substances of animal origin are intentionally used or added.

Regulation (EC) No 1005/2009

Above mention grade(s) complies the regulation (EC) No 1005/2009 of the European Parliament on substances that deplete the ozone layer and does not contain any restricted substances.

Nanomaterials

This product is not nanomaterial product according to Commission Recommendation on the definition of nanomaterial EU 2011/696 of 20 October 2011.

Halogenated substances

Halogenated substances (chlorine, fluorine, iodine, bromine or astatine containing) are not used or intentionally added during manufacturing and therefore is not expected to be present in above mentioned grade(s). Based on this, halogens could only exist in trace amounts. However, this product has not been specifically analyzed for the presence of these substance.

Disclaimer

The information and conclusions of this declaration are based on information provided to Premix Oy by suppliers, and on existing public information sources, such as current legislation, available at the time of publication of the declaration. The suppliers are responsible that the information provided to Premix Oy is accurate and up to date.
